R: REDACTED MATERIAL

Paul Stanley Larson

Curriculum Vita

Personal Information:

Born:
Social Security No.: REDACTED
Home address:
Office address: 427 McGuire Hall; Phone 770-4694.
Wife:
Children:

REDACTED

Education:

University of California (Berkeley), Ph.D. 1934 (Physiology).
University of California (Berkeley), A.B., 1930 (Chemistry).

Academic Appointments:

Haag Professor & Chairman,	Dept. Pharmacology,	MCV,		1963 - 1972.
Professor & Chairman,	"	"	"	1955 - 1972.
Research Professor	"	"	"	1950 - 1955.
Research Assoc. Prof.	"	"	"	1946 - 1950.
Research Associate	"	"	"	1941 - 1946.
Lecturer, Dept. Pharmacol.,	Wayne Univ.,	Sch. Med.,		1940 - 1941.
Associate, Dept. Physiology,	MCV,			1939 - 1940.
Instructor, Dept. Physiology,	Georgetown Univ. Sch. Med.			1934 - 1939.

Membership in Scientific Societies:

REDACTED

2021574965

BOOKS

1. Tobacco. Experimental and Clinical Studies. A Comprehensive Account of the World Literature.
   Larson, P.S., Haag, H.B. and Silvette, H.
   Baltimore, Williams & Wilkins, 1961, 932 pp.

2. Tobacco. Experimental and Clinical Studies. A Comprehensive Account of the World Literature. Supplement I.
   Larson, P.S. and Silvette, H.
   Baltimore, Williams & Wilkins, 1968, 803 pp.

3. Tobacco:Experimental and Clinical Studies. Supplement II.
   Larson, P. S. and Silvette, H.
   Baltimore, Williams & Wilkins, 1971, 563 pp.

4. Tobacco:Experimental and Clinical Studies. Supplement III.
   Larson, P. S. and Silvette, H.
   Baltimore, Williams & Wilkins, 1975, 798 pp.

2021574876

Source: https://www.industrydocuments.ucsf.edu/docs/gthm0000

Membership in Community Organizations:

St. Edward's Church.
Commonwealth Club.
Junior Clinical Club (Alumnus; Past President).
Caduceus Club (Past President).

National & International Listings:

American Men of Science.
Who's Who in America.
World Who's Who in Science.
Who Knows - and What.

Major Committees:

AIBS Advisory Committee to the AEC on Irradiation Substerilization of Food, 1962-65.
Drug Research Board, National Academy of Science, 1963-67.
Committee on Application of Biochemical Studies in Evaluating Drug Toxicity, National Academy of Sciences, 1965-67.
Subcommittee on Continuation Education, Drug Research Board, National Academy of Science, 1965-67.
Policy Advisory Committee, Drug Efficacy Study, National Academy of Science, 1966-67.
Program Study Panel, National Environmental Health Sciences Center, Research Triangle, N.C., 1965.
NIH, Toxicology Study Section, 1964-68.
AMA-ERF, Committee for Research on Tobacco and Health, 1964 - 1977.
NIH, AMA, CTR-USA, Subcommittee of the Joint Committee on Tobacco & Health, 1968 - 1972.
Research & Education Committee, McGuire Veterans Administration Hospital, 1964-70.
Endrin Advisory Committee, Food & Drug Administration, 1966-67.
Special Consultant to the Committee on International Exchange of Persons, 1966-68.
Editorial Board, Toxicology & Applied Pharmacology, 1959-1964.

Other Experience:

Pharmacologist, Frederick Stearns & Co., Detroit, 1940-41.
Principal advisor to six Ph.D. candidates and one M.S. candidate.

LIST OF PUBLICATIONS

Paul S. Larson

1. The effect of insulin on the excretion of allantoin by the normal dog.
   Larson, P. S. and Chaikoff, I. L.
   J. Biol. Chem. 108:457, 1935.

2. The effect of insulin on the purine metabolism of the Dalmation coach-dog.
   Chaikoff, I. L. and Larson, P. S.
   J. Biol. Chem. 109:85, 1935.

3. On the alleged occurrence of acetylcholine and adrenalin in cat's saliva.
   Larson, P. S.
   J. Pharmacol. Exp. Therap. 54:341, 1935.

4. The influence of epinephrine on the purine metabolism of ordinary and Dalmation breeds of dogs.
   Chaikoff, I. L., Larson, P. S. and Read, L. S.
   J. Biol. Chem. 109:395, 1935.

5. The effect of hypophysectomy and cerebral manipulation in the dog upon the response of the blood sugar and inorganic phosphorus to insulin.
   Chaikoff, I. L., Reichert, F. L., Larson, P. S. and Mathes, M. E.
   Am. J. Physiol. 112:493, 1935.

6. The influence of carbohydrates on nitrogen metabolism in the normal nutritional state.
   Larson, P. S. and Chaikoff, I. L.
   J. Nutrition 13:287, 1937.

7. The relation of the adrenal medulla to the effect of insulin on purine metabolism.
   Larson, P. S. and Brewer, G.
   J. Biol. Chem. 115:279, 1936.

8. On the relation of potassium to the blood pressure response to epinephrine.
   Larson, P. S. and Brewer, G.
   J. Pharmacol. Exp. Therap. 61:213, 1937.

9. Physiological response to massive infusions of physiological salt solution.
   Cutting, R. A., Lands, A. M. and Larson, P. S.
   Med. Ann. District Columbia 6:259, 1937.

10. Distribution and excretion of water and chlorides after massive saline infusions.
    Cutting, R. A., Lands, A. M. and Larson, P. S.
    Arch. Surg. 36:586, 1938.

11. The effect of diuresis on the excretion of glucose by the normal dog during constant glucose infusion.
    Cutting, R. A., Larson, P. S. and Lands, A. M.
    Am. J. Physiol. 124:662, 1938.

2021574967

Source: https://www.industrydocuments.ucsf.edu/docs/gthm0000

24. Some chemical and pharmacological observations on "low nicotine" tobacco.
Haag, H. B. and Larson, P. S.
Science 97:187, 1943.

25. The effect of urinary pH on the elimination of quinine in man.
Haag, H. B., Larson, P. S. and Schwartz, J. J.
J. Pharmacol. Exp. Therap. 79:136, 1943.

26. Recent advances in the pharmacology of nicotine.
Haag, H. B. and Larson, P. S.
Va. Med. Month. 71:235, 1944.

27. Quantitative determination of nicotine and nornicotine in mixtures.
Larson, P. S. and Haag, H. B.
Indust. Eng. Chem. Analyt. Ed. 16:86, 1944.

28. Observations on the effect of hyperventilation on the reflex respiratory stimulating action of nicotine and cyanide.
Larson, P. S., Smith, E. L., Finnegan, J. K. and Haag, H. B.
J. Pharmacol. Exp. Therap. 82:133, 1944.

29. On the relative toxicity of nicotine and nornicotine.
Larson, P. S., Haag, H. B. and Finnegan, J. K.
Proc. Soc. Exp. Biol. Med. 58:231, 1945.

30. Monomeric methyl methacrylate. Studies on toxicity.
Spealman, C. R., Main, R. J., Haag, H. B. and Larson, P. S.
Indust. Med. 14:292, 1945.

31. The role of nicotine in the cigarette habit.
Finnegan, J. K., Larson, P. S. and Haag, H. B.
Science 102:94, 1945.

32. Studies on the factors influencing the toxicity of nicotine. The effects of water and food deprivation; disturbed liver function and rate of administration.
Haag, H. B., Larson, P. S. and Finnegan, J. K.
J. Pharmacol. Exp. Therap. 85:356, 1945.

33. Studies on the fate of nicotine in the body. IV. Observations on the chemical structure of an end product of nicotine metabolism.
Larson, P. S., Haag, H. B. and Finnegan, J. K.
J. Pharmacol. Exp. Therap. 86:239, 1946.

34. The biochemorphology of nicotine. I. Observations on the effect of progressive degradation of the pyrrolidine ring.
Larson, P. S., Schwartz, J. J., Finnegan, J. K. and Haag, H. B.
J. Pharmacol. Exp. Therap. 88:82, 1946.

35. A quantitative method for the measurement of cigarette smoke irritation.
Finnegan, J. K., Fordham, D., Larson, P. S. and Haag, H. B.
J. Pharmacol. Exp. Therap. 89:115, 1947.

2021574969

Source: https://www.industrydocuments.ucsf.edu/docs/gthm0000

69. Medical uses of tobacco, past and present.
Silvette, H., Larson, P. S. and Haag, H. B.
Va. Med. Month. 85:472, 1958.

70. Effect of filtration on the chemical and irritating properties of cigarette smoke.
Haag, H. B., Larson, P. S. and Finnegan, J. K.
Arch. Otolaryngol. 69:261, 1959

71. Acute and chronic toxicity studies on 2,4-dinitro-6-(1-methylheptyl) phenyl crotonate (Karathane).
Larson, P. S., Finnegan, J. K., Smith, R. B., Jr., Haag, H. B., Hennigar, G. R. and Patterson, W. M.
Arch. Int. Pharmacodyn. 119:31, 1959.

72. Toxicologic studies on 1,1-bis-(chlorophenyl)-2,2,2-trichloroethanol (Kelthane).
Smith, R. B., Jr., Larson, P. S., Finnegan, J. K., Haag, H. B., Hennigar, G. R. and Coby, F.
Toxicol. Appl. Pharmacol. 1:119, 1959.

73. Toxicity studies on dichlorophenylbenzene sulfonate.
Smith, R. B., Jr., Deichmann, W. B., Hennigar, G. R., Finnegan, J. K., Haag, H. B. and Larson, P. S.
Arch. Int. Pharmacodyn. 121:306, 1959.

74. Studies on the acute toxicity and irritating properties of the congeners in whisky.
Haag, H. B., Finnegan, J. K., Larson, P. S. and Smith, R. B., Jr.
Toxicol. Appl. Pharmacol. 1:618, 1959.

75. Measurement of tobacco smoking.
Larson, P. S., Haag, H. B. and Silvette, H.
Med. Times 88:417, 1960.

76. Effect of nicotine and tobacco on muscle function.
Fischer, E., Silvette, H., Larson, P. S. and Haag, H. B.
Am. J. Phys. Med. 39:63, 1960.

77. Tobacco and renal function and diseases of the urinary tract. A review of the effects of smoking and nicotine administration in man and animals.
Larson, P. S., Haag, H. B. and Silvette, H.
Va. Med. Month. 87:332, 1960.

78. Tobacco amblyopia. The evolution and natural history of a "tobaccogenic" disease.
Silvette, H., Haag, H. B., and Larson, P. S.
Am. J. Ophth. 50:71, 1960.

79. Absorption of nicotine under various conditions of tobacco use.
Larson, P. S.
Ann. N. York Acad. Sci. 90:31, 1960.

80. The effect on rats of chronic exposure to cigarette smoke.
Haag, H. B., Larson, P. S. and Weatherby, J. H.
Ann. N. York Acad. Sci. 90:227, 1960.

2021574973

Source: https://www.industrydocuments.ucsf.edu/docs/gthm0000

36. Studies on cigarette smoke irritation. I. Determination of edema-producing properties of certain types of cigarette tobaccos.
Larson, P. S., Haag, H. B. and Finnegan, J. K.
Proc. Soc. Exp. Biol. Med. 64:476, 1947.

37. Studies on cigarette smoke irritation. II. The role of nicotine.
Finnegan, J. K., Larson, P. S. and Haag, H. B.
Proc. Soc. Exp. Biol. Med. 65:200, 1947.

38. Studies on the fate of nicotine in the body. V. Observations on relation of nicotine dosage to per cent excreted in urine, rate of excretion and rate of detoxication.
Finnegan, J. K., Larson, P. S. and Haag, H. B.
J. Pharmacol. Exp. Therap. 91:357, 1947.

39. Observations on the comparative pharmacologic actions of 6-dimethylamino-4, 4-diphenyl-3-heptanone (Amidone) and morphine.
Finnegan, J. K., Haag, H. B., Larson, P. S. and Dreyfuss, M. L.
J. Pharmacol. Exp. Therap. 92:269, 1948.

40. Some basic facts of medical interest concerning cigarettes and their smoke.
Haag, H. B. and Larson, P. S.
The Interne 14:110, 1948.

41. Comparative chronic toxicity for warm-blooded animals of 2, 2-bis-(p-chlorophenyl)-1,1,1-trichloroethane (DDT) and 2,2-bis-(p-chlorophenyl)-1, 1-dichloroethane (DDD).
Haag, H. B., Finnegan, J. K., Larson, P. S., Dreyfuss, M. L., Main, R. J. and Riese, W.
Indust. Med. 17:477, 1948.

42. Cigarette smoke irritation. III. The efficiency of filters in reducing its intensity.
Haag, H. B., Finnegan, J. K. and Larson, P. S.
Arch. Otolaryngol. 48:41, 1948.

43. Species variation in the protective action of anesthesia against the acutely lethal effect of nicotine.
Larson, P. S., Finnegan, J. K., Bibb, C. and Haag, H. B.
Fed. Proc. 8:313, 1949.

44. Studies on the fate of nicotine in the body. VI. Observations on the relative rate of elimination of nicotine by the dog, cat, rabbit and mouse.
Larson, P. S., Finnegan, J. K. and Haag, H. B.
J. Pharmacol. Exp. Therap. 95:506, 1949.

45. Tissue distribution and elimination of DDD and DDT following oral administration to dogs and rats.
Finnegan, J. K., Haag, H. B. and Larson, P. S.
Proc. Soc. Exp. Biol. Med. 72:357, 1949.

46. Note on the protective action of Diparcol against lethal dose of nicotine.
Larson, P. S., Van Slyke, C. B., Finnegan, J. K. and Haag, H. B.
Science 111:476, 1950.

2021574970

Source: https://www.industrydocuments.ucsf.edu/docs/gthm0000

81. Chronic toxicity studies on two epoxidized soybean oils in the rat and dog.
Larson, P. S., Finnegan, J. K., Haag, H. B., Smith, R. B., Jr., and Hennigar, G. R.
Toxicol. Appl. Pharmacol. 2:649, 1960.

82. Chronic toxicologic studies on isopropyl N-(3-chlorophenyl) carbamate (CIPC)
Larson, P. S., Crawford, E. M., Smith, R. B., Jr., Hennigar, G. R., Haag, H. B. and Finnegan, J. K.
Toxicol. Appl. Pharmacol. 2:659, 1960.

83. Changing concepts of the role of tobacco in the management of disease.
Larson, P. S., Haag, H. B. and Silvette, H.
Am. J. Med. Sci. 240:613, 1960.

84. Some effects of nicotine and smoking on metabolic functions.
Larson, P. S., Haag, H. B. and Silvette, H.
Clin. Pharm. Ther. 2:80, 1961.

85. Effects of adding gamma-irradiated green beans or fruit compote to the diet of dogs.
Larson, P. S., Belter, L. F., Crawford, E. M., Haag, H. B., Finnegan, J. K., and Smith, R. B., Jr.
Toxicol. Appl. Pharmacol. 3:57, 1961.

86. Actions of nicotine and tobacco-smoking on the adrenal medulla. A review.
Silvette, H., Larson, P. S. and Haag, H. B.
Arch. Int. Med. 107:915, 1961.

87. The actions of nicotine on central nervous system functions.
Silvette, H., Hoff, E. C., Larson, P. S. and Haag, H. B.
Pharmacol. Rev. 14:137, 1962.

88. Toxicologic studies on a preparation of p-tertiary octylphenoxy-polyethoxy ethanols (Triton X-405).
Larson, P. S., Borzelleca, J. F., Bowman, E. R., Crawford, E. M., Smith, R. B., Jr. and Hennigar, G. R.
Toxicol. Appl. Pharmacol. 5:782, 1963.

89. Studies on the chronic oral toxicity of monomeric ethyl acrylate and methyl methacrylate.
Borzelleca, J. F., Larson, P. S., Hennigar, G. R., Huf, E. G., Crawford, E. M. and Smith, R. B., Jr.
Toxicol. Appl. Pharmacol. 6:29, 1964.

90. In vivo and in vitro studies on the question of a biologic relationship between nicotine and ascorbic acid.
Taber, R. I. and Larson, P. S.
Arch. Int. Pharmacodyn. 151:243, 1964

91. Medical uses of tobacco (past and present).
Larson, P. S. and Silvette, H.
Tobacco Alkaloids and Related Compounds,
Proceedings Fourth International Symposium, Wenner-Gren Center, Stockholm, Feb. 1964. Pergamon Press 1965, pp. 3-13.

2021574974

Source: https://www.industrydocuments.ucsf.edu/docs/gthm0000

58. Observations on the relation of chemical structure to the production of adrenal cortical atrophy or hypertrophy in the dog by derivatives of 2, 2-bis-(p-chlorophenyl)-1,1-dichloroethane (DDD, TDE).
Larson, P. S., Hennigar, G. R., Finnegan, J. K., Smith, R. B., Jr., and Haag, H. B.
J. Pharmacol. Exp. Therap. 115:408, 1955.

59. Acute and chronic toxicity studies on 2,2-bis-(p-ethylphenyl)-1,1-dichloroethane (Perthane).
Finnegan, J. K., Hennigar, G. R., Smith, R. B., Jr., Larson, P. S. and Haag, H. B.
Arch. Int. Pharmacodyn. 103:404, 1955.

60. Observations on the effect of chemical configuration on the edema producing properties of acids, aldehydes, ketones and alcohols.
Larson, P. S., Finnegan, J. K. and Haag, H. B.
J. Pharmacol. Exp. Therap. 116:119, 1956.

61. Immunological aspects of tobacco and smoking.
Silvette, H., Larson, P. S. and Haag, H. B.
Am. J. Med. Sci. 234:561, 1957.

62. Studies on derivatives of 2,2-bis-(p-chlorophenyl)-1,1-dichloroethane (DDD, TDE) with special reference to their effects on the adrenal cortex.
Bleiberg, M. J. and Larson, P. S.
J. Pharmacol. Exp. Therap. 121:421, 1957.

63. Acute and chronic toxicity studies on pentachloronitrobenzene.
Finnegan, J. K., Larson, P. S., Smith, R. B., Jr., Haag, H. B. and Hennigar, G. R.
Arch. Int. Pharmacodyn. 114:38, 1958.

64. Metabolism of lactic acid and glycerol in C^{14}-glyceryl lactopalmitate.
McKennis, H., Jr., Turnbull, L. B., Haag, H. B. and Larson, P. S.
Proc. Soc. Exp. Biol. Med. 97:498, 1958.

65. Some current applications of carbon-14 to animal and physiological research: studies with tobacco and its constituents.
Larson, P. S. and Harlow, E. S.
Radioisotopes in Scientific Research, Volume III, Pergamon Press, 1958.

66. Barbiturate potentiating action of DDD and Perthane.
Nichols, J., Kaye, S. and Larson, P. S.
Proc. Soc. Exp. Biol. Med. 98:239, 1958

67. Studies on the metabolism of nornicotine in the dog.
Hucker, H. B. and Larson, P. S.
J. Pharmacol. Exp. Therap. 123:259, 1958.

68. Studies on the fate of nicotine in the animal body. VIII. Observations on the number and chemical nature of nicotine metabolites in the dog and cat.
Owen, F. B., Jr. and Larson, P. S.
Arch. Int. Pharmacodyn. 115:204, 1958.

2021574972

Source: https://www.industrydocuments.ucsf.edu/docs/gthm0000

12. Cause of death resulting from massive infusion of isotonic solutions.
Cutting, R. A., Larson, P. S. and Lands, A. M.
Arch. Surg. 38:599, 1939.

13. On the relation of blood pressure to the plasma potassium level.
Brewer, G. and Larson, P. S.
J. Pharmacol. Exp. Therap. 63:272, 1938.

14. On the effect of epinephrine on blood potassium
Brewer, G., Larson, P. S. and Schroeder, A. R.
Am. J. Physiol. 126:708, 1939.

15. On the mechanism of depression of serum potassium by anesthetics.
Larson, P. S. and Brewer, G.
J. Pharmacol. Exp. Therap. 67:147, 1939.

16. Size of the extracellular compartment of skeletal muscle.
Lands, A. M., Larson, P. S. and Cutting, R. A.
Proc. Soc. Exp. Biol. Med. 41:606, 1939.

17. Physiological factors that may alter the plasma potassium level.
Larson, P. S.
Med. Col. Va. Bull. 37(2):5, 1940.

18. The effect of epinephrine on blood pH.
Larson, P. S.
Am. J. Physiol. 129:401, 1940.

19. On the mechanism of the depression of the serum potassium level by epinephrine.
Larson, P. S.
Am. J. Physiol. 130:562, 1940.

20. The size of the extracellular fluid compartment before and after massive infusions.
Lands, A. M., Cutting, R. A. and Larson, P. S.
Am J. Physiol. 130:421, 1940.

21. Studies on the fate of nicotine in the body. I. The effect of pH on the urinary excretion of nicotine by tobacco smokers.
Haag, H. B. and Larson, P. S.
J. Pharmacol. Exp. Therap. 76:235, 1942.

22. Studies on the fate of nicotine in the body. II. On the fate of nicotine in the dog.
Larson, P. S. and Haag, H. B.
J. Pharmacol. Exp. Therap. 76:240, 1942.

23. Studies on the fate of nicotine in the body. III. On the pharmacology of some methylated and demethylated derivatives of nicotine.
Larson, P. S. and Haag, H. B.
J. Pharmacol. Exp. Therap. 77:343, 1943.

2021574968

Source: https://www.industrydocuments.ucsf.edu/docs/gthm0000

47. Observations on the role of the adrenal medulla in the blood pressure response to nicotine.
Van Slyke, C. B. and Larson, P. S.
J. Pharmacol. Exp. Therap. 98:400, 1950.

48. Observations on the effect of cigarette smoking on the fusion frequency of flicker.
Larson, P. S., Finnegan, J. K. and Haag, H. B.
J. Clin. Invest. 29:483, 1950.

49. Observations on the pharmacology of nicotyrine.
Larson, P. S., Finnegan, J. K., Van Slyke, C. B. and Haag, H. B.
Arch. Int. Pharmacodyn. 83:191, 1950.

50. Comparative chronic toxicity for warmblooded animals of 2,2-bis-(p-chlorophenyl)-1, 1, 1-trichloroethane (DDT) and 2,2-bis-(p-methoxyphenyl)-1, 1,1-trichloroethane (DMDT, methoxychlor).
Haag, H. B., Finnegan, J. K., Larson, P. S., Riese, W. and Dreyfuss, M. L.
Arch. Int. Pharmacodyn. 83:491, 1950.

51. Sedative and toxic effects of several chloral derivatives.
Finnegan, J. K., Larson, P. S., Haag, H. B. and Page, S. G., Jr.
Fed. Proc. 10:294, 1951.

52. Observations on the nicotinolytic activity of some aralkyl amines.
Larson, P. S., Van Slyke, C. B., Finnegan, J. K. and Haag, H. B.
Fed. Proc. 10:317, 1951.

53. Metabolism of nicotine and nature of tobacco smoke irritants.
Larson, P. S.
Industr. Eng. Chem. 44:279, 1952.

54. Observations on the metabolism of nicotine by tissue slices.
Miller, A., Jr. and Larson, P. S.
J. Pharmacol. Exp. Therap. 109:218, 1953.

55. Toxicologic studies on zinc and disodium ethylene bisdithiocarbamates.
Smith, R. B., Jr., Finnegan, J. K., Larson, P. S., Sahyoun, P. F., Dreyfuss, M. L. and Haag, H. B.
J. Pharmacol. Exp. Therap. 109:159, 1953.

56. Pharmacologic observations on two quarternary ammonium germicides.
Finnegan, J. K., Larson, P. S., Smith, R. B., Jr., Haag, H. B., Reid, J. D. and Dreyfuss, M. L.
J. Pharmacol. Exp. Therap. 109:422, 1953.

57. Studies on the fate of nicotine in the body. VII. Observations on the excretion of nicotine and its metabolites by the dog.
Bennett, D. R., Tedeschi, R. and Larson, P. S.
Arch. Int. Pharmacodyn. 98:221, 1954.

2021574971

Source: https://www.industrydocuments.ucsf.edu/docs/gthm0000

92. Tobacco alkaloids and central nervous system functions.
Larson, P. S. and Silvette, H.
Tobacco Alkaloids and Related Compounds, Proceedings Fourth International Symposium, Wenner-Gren Center, Stockholm, Feb. 1964. Pergamon Press 1965, pp. 105-124.

93. Biosynthesis of C^{14}-labeled compounds with higher plants.
Stepka, W. and Larson, P. S.
Isotopes in Experimental Pharmacology, University of Chicago Press, 1965, pp. 7-13.

94. Toxicologic studies on monochloroacetaldehyde 2,4-dinitrophenylhydrazone, a foliar fungicide.
Ambrose, A. M., Borzelleca, J. F., Larson, P. S., Smith, R. B., Jr., and Hennigar, G. R., Jr.
Toxicol. Appl. Pharmacol. 8, 472-481, 1966.

95. Toxicologic studies on diethyl-1-(2,4-dichlorophenyl)-2-chlorovinyl phosphate.
Ambrose, A. M., Larson, P. S., Borzelleca, J. F. and Hennigar, G. R., Jr.
Toxicol. Appl. Pharmacol. 17, 323-336 (1970).

96. Toxicologic and metabolic studies on pentochloronitrobenzene.
Borzelleca, J. F., Larson, P. S., Crawford, E. M., Hennigar, G. R., Jr., Kuchar, E. J. and Klein, H. H.
Toxicol. Appl. Pharmacol. 18, 522-534, 1971.

97. Toxicologic studies on 2,4 dichlorophenyl-p-nitrophenyl ether.
Ambrose, A.M., Larson, P.S., Borzelleca, J.F., Smith, R.B., Jr., and Hennigar, G.R., Jr.
Toxicol. Appl. Pharmacol. 19: 263-275, 1971.

98. Toxicologic studies on 3',4'-dichloropropionanilide.
Ambrose, A. M., Larson, P. S., Borzelleca, J. F. and Hennigar, G. R., Jr.
Toxicol. Appl. Pharmacol. 23: 650-659, 1972.

99. Long term toxicologic assessment of nickel in rats and dogs.
Ambrose, A. M., Larson, P. S., Borzelleca, J. F. and Hennigar, G. R., Jr.
J. Food Sci. Technol. 13: 181-187, 1976.

100. Acute, Subchronic, and Chronic Toxicity of Chlordecone.
Larson, Paul S., Egle, John L., Jr., Hennigar, Gordon R., Lane, Richard W., and Borzelleca, Joseph F.
Toxicol. Appl. Pharmacol. 48: 29-41, 1979.

101. Acute and subchronic toxicity of Mirex in the rat, dog and rabbit.
Larson, Paul S., Egle, John L., Jr., Hennigar, Gordon R., and Borzelleca, Joseph F.
Toxicol. Appl. Pharmacol. 49: 271-277, 1979.
